**Name of the College: Government College of Arts, Science and Commerce, Sanquelim - Goa**

| **Name of Faculty:** Ms. Hema Umesh Sawant | **Subject:** Geography | |
|---|---|---|
| **Paper code & paper:** GEC107 & Regional Planning and Development | **Program:** T.Y.B.A. | **Division:** |
| **Academic year:** 2024-25 | **Semester:** VII | **Total Lectures: 36** |

**Course Objectives:**

To understand and evaluate the concept of region in geography and its role and relevance in regional planning.

To identify the issues relating to the development of the region through the process of spatial organization of various attributes and their interrelationship.

**Course Outcome:** Students are expected to understand the concept of regional planning and its variations across time and space. They will be able to correlate and differentiate the various types of regional planning and apply the same to the local settings.

**Student Learning Outcome:**

**After completion of this course, students will be able to:**

- Recognize the need for regional planning in India due to its diversity and size.
- Understand the role of multi-level planning in regional development.
- Analyse the challenges and opportunities associated with regional planning in India.
- Differentiate between economic growth and development.

- Explain key theories of development (Cumulative Causation, Stages of Economic Growth).

- Identify various indicators used to measure development (economic, social, environmental).

- Understand the significance of the Human Development Index (HDI).

- Recognize the existence of regional inequality in India.

- Analyse the causes and consequences of regional inequality.

- Evaluate different strategies for promoting balanced regional development (infrastructure development, industrialization, human development, regional cooperation).
