

Semester Lecture Plan

Name of the college: Government College of Arts, Science & Commerce, Sanquelim, Goa - 403505

Name of Faculty: Ms. Madhavi Gauns	Academic year: 2024- 2025	Semester: III	Program: SYBA
---	----------------------------------	----------------------	----------------------

Division:	Subject: Geography	Total Lectures: 24
------------------	---------------------------	---------------------------

Paper code: GOG-211	Paper Name: Economic Geography
----------------------------	---------------------------------------

Course Objectives:

- The Economic Geography course seeks to provide students with a thorough understanding of how economic activities are organized in different locations influencing global, regional, and local environments.
- Students will explore fundamental concepts, such as the impact of resources on economic development and locational theories guiding industrial choices.
- The course also covers the spatial organization of agriculture and the dynamics of global trade and connectivity through transportation systems.
- By the end, students should be able to analyze how economic geography shapes our world and critically assess regional economic planning.

Expected Course Outcome:

At the end of the successful completion of this course, students will be able to:

CO1: Describe the relationship between geography and economic activities.

CO2: Apply spatial organization concepts to analyze resource distribution.

CO3: Evaluate the impact of trade patterns on regional and global economies.

CO4: Develop insights into the spatial organization of economic activities.

Student Learning Outcome:

LO1: Students will be able to describe the relationship between geography and economic activities.

LO2: They will be able to apply spatial organization concepts to analyze resource distribution.

LO3: Also able to evaluate the impact of trade patterns on regional and global economies.

LO4: Students will be able to develop insights into the spatial organization of economic activities.
